

Maximo® Functional Review (MFR)

- Are you disappointed with your maintenance teams and/or asset performance?
- Are you wondering if you are getting the most out of your Maximo implementation?
- Are you planning an upgrade and want to leverage the functionality of Maximo 7.1 to the fullest?
- Do you think a Maximo add-on or Industry Solution is in your future?

TRM's Maximo Functional Review (MFR) helps answer these questions by inspecting your organization in the following areas:

Process

Maintenance, asset, and supply chain management processes alignment
Regulation Compliance
Regulation Reporting
Maintenance Costs
Reactive vs. Proactive vs. Predictive Maintenance
Operating with Smaller Maintenance Budgets
Pre-mature Asset Failures
Asset Failure Diagnosis

Products/Technology

Maximo Upgrade Planning
Maximo Performance
Maximo Integration
Maximo Data Integrity
Maximo Security
Maximo Administration
Maximo Reporting
Maximo Add-on Product and/or Industry Solution Implementation

People

End-User Maximo Training
End-User Acceptance of Maximo
Maximo End-User Experience
Maintenance, asset, and supply chain management organization structure

Partners/Suppliers

Realize Service Provider Value
Eliminate Service Provider Performance Issues
Establish Service Level Agreements

To address these areas in your organization, contact TRM to schedule your MFR.

The successful use of Enterprise Asset Management systems requires information to be used in a structured way that will improve organizational performance. TRM offers realistic and workable solutions based on experience, knowledge of the industry, and Maximo functionality. TRM consultants work closely with the end users and help them use Maximo in a way that will support improved asset management across the enterprise.

About TRM

Total Resource Management (TRM) is focused on improving the asset and operational performance of organizations through the effective use of information technologies.
