

ASSET ACCOUNTABILITY AND STEWARDSHIP

REDUCE AUDIT RISK

CONTRACT COMPLIANCE

DESIGNED FOR FEDERAL CONTRACTORS

TECHNICAL AND COMPLEX CHALLENGES SOLVED

COMPLETE ASSET MANAGEMENT SOLUTIONS

LICENSE OPTIONS, CLOUD-ENABLED

Pre-Configured Fields:

Government assets aligned With FAR/DFAR Requirements

Government System Interfaces on Roadmap:

IUID, DCMA eTools, WAWF, DPAS, PCARSS, LTDD, FLIS, Navy SPM

Forms/Reports Service:

DD250, DD1149, Extensive Library, configurable to be agency-specific

Rapid Standup:

Short Phase-in Periods, with Month-to-Month Options

Sub-Contractor Control:

Manage subcontractors, including property tracking and disposition

Commercial Integration Experience:

Doc Mgt, Deltek, SAP, Oracle, TRIRIGA CAFM, ERSI, CADD, Primavera, WinEstimator, Remedy, 3rd Party Fuel Vendors, 3rd Party Mobile Solutions

Government Integration Experience:

Army Corps of Engineers Financial Management System (CEFMS), DoD CERL Builder, Navy Public Works Management Information System (PWMIS), Navy Contract Management and Reconciliation System (CMARS), Navy Material Ordering and Management System (MOMS), Naval Facility Asset Database (NFADB), Navy Computerized Time and Attendance Reporting System (CTARS), Navy Standard Labor Data Collection and Distribution Application (SLDCADA), Navy Work Information tracking System (WITS), Defense Medical Logistics Standard Support (DMLSS), Army Housing Operations Management System (HOMES), Marine Corps Standard Accounting, Budgeting, and Reporting System (SABRS), Marine Corps Management Information System for Family Housing (MANIS)

Mobility options, including Connected/Disconnected:

Fully configurable for Asset Traceability and Asset Tagging

Technical Library Of Reports:

Contract Data Requirements Lists (CDRLs)

Tools Accelerating End User Training:

Faster Onboarding, Menu Assisted Data Entry

DOD Risk Assessments Following:

NIST SP 800-53 Rev 4, NIST SP 800-171

Authority To Operate (ATO) Process

TRM will help clients achieve ATO for their MFFP system

Supports Single Sign-On and Two Factored Authentication

Can support Maximo secure login requirements

Secure Certified Data Centers:

IBM FEDRAMP - Impact Level 2 or Microsoft FEDRAMP - Impact Level 4

Warehousing/Inventory Management:

Multiple Control Points, Track Shipping, Kitting

Fleet Management and Reporting:

Targeting GSA FAST Integration

Fuel Automated Management Systems:

Fuel Operations, Purchasing, Testing

Weapons Management:

Track By Person/Location - Custodianship

Reliability Centered Maintenance Programs w/ Maximo Feeds:

Failure Data, Scheduling

Tool Crib Management Systems:

Check-in, Check-out, Calibration

On-Prem - Hosted - SaaS - Cloud:

With TRM L1 Support

Bridge To Cloud Program:

Convert On-Prem Software License To Cloud Subscription

SaaS FLEX PLUS Program:

With RulesManager & TRM Anywhere Builder - TRM L1 Support
