FedRAMP Authorized Maximo SaaS

TRM Manages and Operates the FedRAMP Authorized Maximo SaaS Solution for IBM.

In Support of the Office of Management and Budget's (OMP) Cloud First Policy, FedRAMP (Federal Risk and Authorization Management Program) enables federal agencies to rapidly transition from old, legacy IT to secure and cost effective, cloud-based IT.

The FedRAMP agency authorized Maximo SaaS offering is the ideal fit for organizations willing to accept and conform with the existing approved solution. The Authorization to Operate (ATO) receives an annual recertification from Third Party Audit Organization (3PAO) to ensure it conforms with the 35 NIST 800-53- security controls.

TRM High Security Cloud

Organizations that have unique requirements or complexity that the FedRAMP Maximo solution cannot support, can now consider TRM High Security Cloud.

TRM High Security Cloud complies with the NIST Cyber Security Framework, and provides the flexibility that many organizations that use Maximo require to meet the needs of their business and mission – when ISO 27001 certification alone is not adequate.

TRM's High Security Cloud can be deployed to meet NIST 800-53, NIST 800-171/CMMC, and FISMA cyber security standards and regulations, and can also accommodate the
